EDUCATION

B.Eng Artificial Intelligence
Poznan University of Technology
2022 - 2026

SKILLS

• GenAI/RAG:

Vector and hybrid retrieval, multimodal embeddings (text and image), grounding with citations, evaluation and feedback loops, access control for knowledge bases, LLM tool calling

• Azure:

Azure OpenAI (AI Foundry), AI Search, Blob Storage, Cosmos DB, Functions, Event Grid, App Service, Key Vault, Entra ID, Application Insights, Log Analytics

• Engineering:

Python (Flask), REST APIs, async background processing, React, TypeScript, Electron, Bicep, GitHub Actions, Docker, pytest, Vitest

LANGUAGES

- English** - C1
- Polish** - Native

Azure OpenAI • Azure AI Search • Python •
React and TypeScript • Electron • Bicep IaC •
Peer-reviewed publication (Springer, 2025)

Experience

○ GenAI / RAG Engineer - LiNA Medical

Poznań / Remote | 2024.07 - Present

- **Owned end-to-end internal RAG assistant** for company knowledge: ingestion, indexing, retrieval, and citation-grounded answers.
- **Implemented multimodal document retrieval** using image and text embeddings for improved search over scanned and visual content.
- **Implemented enterprise access control** using Entra ID, enabling per-user and role-based document search permissions.
- **Built incremental ingestion and background processing** with Azure Functions and queues, adding retries, health checks, and structured telemetry.
- **Delivered web and Windows desktop clients** (React, TypeScript, Electron) with SSO, resilience to network issues, and an automated release and update workflow.
- **Led internal beta and rollout:** requirements discovery, tester onboarding, feedback collection, bug triage, and weekly iteration with stakeholders.
- **Co-developed GDPR and security documentation** (including DPIA) with DPO and IT, drove decisions on data minimization, retention, and auditability.
- **Established engineering standards for the project:** architecture documentation, ADRs, linting, tests, and CI workflows.

○ Programming Teacher - Coding Giants

Poznań / Remote | 2023.11 - 2024.02

- **Explained technical concepts**, taught programming fundamentals.
- Managed organization and communication using CRM tools.

○ Freelance Web Developer (WordPress) - Self-employed (multiple clients)

Remote | 2022.05 - 2024.07 (part-time)

- **Delivered client websites** end-to-end (design, implementation, deployment) and provided ongoing maintenance.
- **Implemented security hardening**, forms/SMTP, basic SEO/performance improvements, and anti-spam protections.

Publications

- **Among Them: A Game-Based Framework for Assessing Persuasion Capabilities of LLMs** - PAKDD 2025. DOI: 10.1007/978-981-96-8186-0_15
